

SMALL URBAN ARCHITECTURE

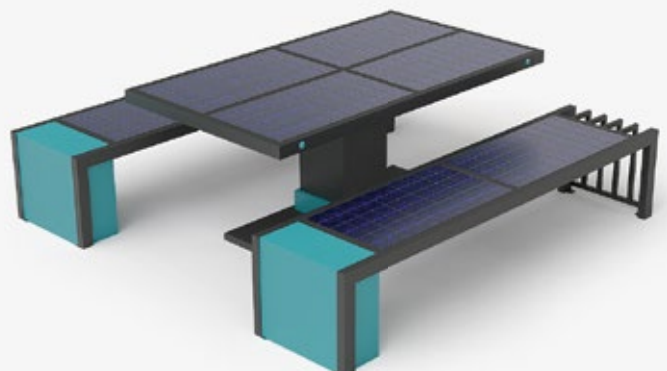

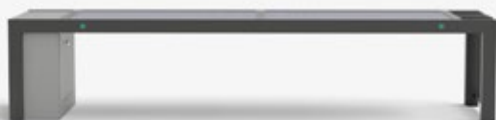

benches and tables
with photovoltaic system

We specialize in creating products of small urban architecture, combining modern photovoltaic technology with functionality, which also allow to change the design of „gray” public utilities.

Our products of urban space are park benches and tables equipped with a USB fast charging stations and twilight lighting.

Options of equipment:

- access point to an open WiFi network,
- illuminations and lighting also in the RGB version
- additional individual equipment and nonstandard functions,
- labeling, product customization.

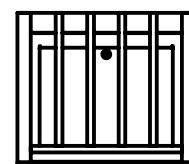

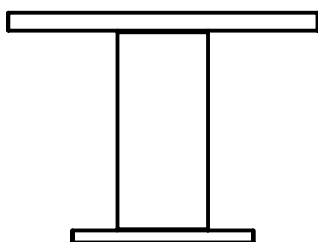

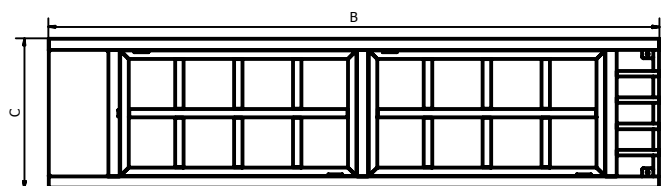

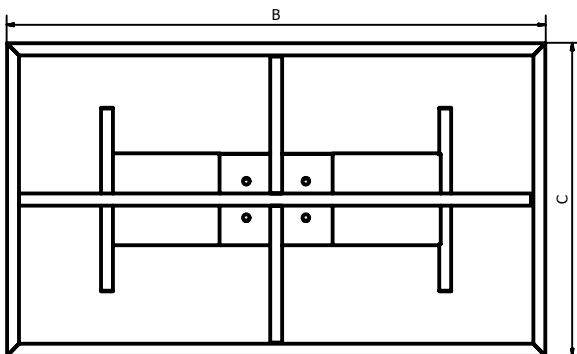

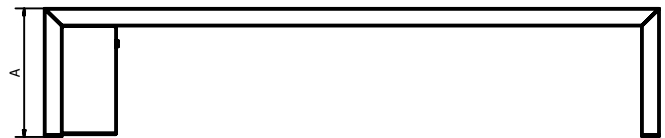

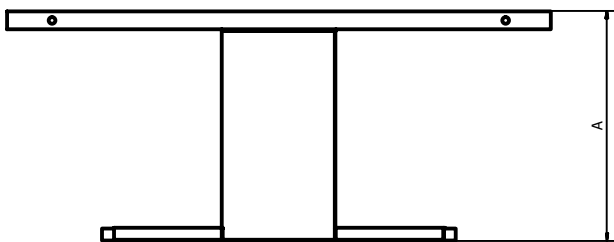

SMALL URBAN ARCHITECTURE

benches and tables with photovoltaic system
